Santu Pramanik

Bengaluru, Karnataka - 560024

+91-9832487454 santu700141@gmail.com linkedin.com/in/santu-pramanik github.com/santupramanik1

Career Objective

Full Stack Developer with hands-on experience building scalable web applications using React.js, Next.js, Node.js, Express.js, and MongoDB, with expertise in REST APIs and modern databases. Experienced in integrating AI-powered features using LLMs, RAG, and LangChain to build intelligent and user-focused applications. Seeking to contribute strong full-stack and AI integration skills to a high-impact engineering team.

Educational Qualification

Presidency College (Autonomous) Nov 2024 – July 2026
Master of Computer Applications (MCA) – CGPA: 9.05 Bengaluru, Karnataka

Panskura Banamali College (Autonomous) Jun 2021 – Jun 2024
Bachelor of Computer Applications (BCA) – CGPA: 8.76 Panskura, West Bengal

Experience

Web Development Intern | **Inquesta** *(Remote)* Apr 2026 – Jun 2026

- Co-developed a highly responsive EdTech platform supporting 50+ users, contributing to a reliable and scalable web application architecture, established a rigorous staging and deployment pipeline that maintained 99.9% backend uptime over a 30-day period.
- Designed optimized relational database schemas and implemented clean, modular code architectures for managing complex course catalogs, transactions, and site alerts.

Projects

TripBloom – Travel Planning Platform | *Live Demo* Jul 2026 – Sep 2026
Tech Stack: Next.js | Supabase | Amazon S3

- Built a travel planning platform that enables users to discover destinations, organize trips, and manage travel plans.
- Integrated Supabase for backend data management and Amazon S3 for reliable and scalable file storage.

HireIQ – AI-Driven Recruitment Platform | *Live Demo* Apr 2026 – Jun 2026
Tech Stack: React.js | Node.js | Express.js | MongoDB | Python | TypeScript | LangChain

- Architected an AI-powered recruitment platform to streamline candidate evaluation and automated hiring workflows.
- Designed a responsive recruiter dashboard and secure REST APIs using clean, modular backend architecture.
- Developed automated resume screening and AI-powered candidate interviewing modules to support efficient recruitment decisions.

CogniSketch – AI Chat & Image Generation Platform | *Live Demo* Oct 2025 – Nov 2025
Tech Stack: React.js | Node.js | Express.js | MongoDB | Stripe

- Engineered a full-stack platform integrating Google Gemini and ImageKit for real-time conversational interfaces and dynamic image generation.
- Implemented a secure Stripe-based credit system to manage tiered subscription plans and API usage efficiently.

TaskPilot – Smart Task Management Platform | *Live Demo* Jun 2025 – Jul 2025
Tech Stack: MongoDB | Express.js | React.js | Node.js | Tailwind CSS

- Developed secure user authentication and account management workflows using JWT and RESTful APIs.
- Engineered comprehensive task management features with advanced sorting and prioritization based on due dates and task priority.

Technical Skills

Languages: C++, JavaScript, TypeScript, Python, Java
Databases & BaaS: MongoDB, MySQL, Supabase
Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3
Backend: Node.js, Express.js, REST API Design, JWT Authentication
Tools & Platforms: Git, GitHub, Vercel, Render, Postman, AWS S3
AI & GenAI: Generative AI, LLMs, RAG, LangChain, Claude Code
